

Open cab

single side on and off
or
pass-thru

Open cab

This is our standard model and the most cost-efficient of all the options offered. The open cab model comes standard with aluminum picket railing but can be upgraded with overlaid tinted ANSI Z97.1 acrylic lexan. Depending on your application each model offered has the option of a single side on and off or a pass-thru entry. With no bi-fold doors these models require a shear wall or one of a stationary door to safely block pinch points as lift is in motion. Standard options also include 3/8" stainless steel ropes, slip resistant flooring, and an all aluminum and stainless steel construction.

Modular Mounting Designs

I-BEAM MOUNT

This option fits to any application that needs to mount to a corner deck or house location.

TRIANGLE MOUNT

This option fits to any application that needs to mount to the side of a deck or house location.

C_CHANNEL MOUNT

This option fits to any application that needs to mount directly to a deck or house location.

THE CAROLINA LIFT

Sustainably Sourced Materials

All aluminum and stainless construction to withstand the harsh environment.

Customer Reviews

Allison Brown

Love my lift!!! So much easier to get in the groceries.

Paul Watson

Purchased my lift 2 years ago to help get my disabled father-in-law in our 2-story home. Great purchase!

Susan King

So happy with my lift. I even taught the dogs to ride it. Lol
